

**Outgoing Merge with Timing Belt**

| Series | SM [mm]   | L [mm]                             | SA   | h [mm] | v [m/s]   | Capacity* [daN] |
|--------|-----------|------------------------------------|------|--------|-----------|-----------------|
| 54350  | 300 - 700 | width of roller conveyor (NB) - 10 | 2, 3 | 420    | 0.2 - 0.5 | max. 60         |

\* Benchmarks. Mandatory values on request.

The GURA Outgoing Merge with Timing Belt is reversible. Goods can be infeed as well as outfeed. This timing belt conveyor can be combined with the following series:  
 Series 52000 Powered Roller Conveyor with traction drive  
 Series 53000 Powered Roller Conveyor with tangential drive  
 Series 55000 Powered Roller Conveyor with bottom belt drive  
 Series 56000 Powered Roller Conveyor with round belt drive

**Example order:** 54350 – 300 – 3 – 2500 = Outgoing Merge with Timing Belt

- 54350 = Series no.
- 300 = Nominal width NB [mm]
- 3 = 3 Lanes [SA]
- 490 = Length L [mm]
